Processing Information

For a product with a single component, such as a cookie or a loaf of bread, fill out one line and list "cookie batter" or "bread dough" as the component name.

For products with multiple components, such as a cupcake, use one line for the cupcake batter and another for the frosting.

Complete a formula sheet for each listed component if the component isn't a raw fruit, or raw vegetable.

#	Component	*Raw weight per piece, tray, pan, etc	*Processing Method (baked, braised, etc or none)	*Finished Weight per same piece, tray, pan, etc	Component Moisture Content after Processing (optional)
